WHO WE ARE

Established in 2012, nu**lumen**tek is now, an internationally renowned specialist lighting solutions provider. Our core strength lies in delivering professional support to our valued clients and partners. Our proficiency spans a range of areas, encompassing standard commercial lighting, premium architectural lighting, facade lighting, urban and landscape lighting, as well as specialised retrofitting.

Operating from offices in Ireland, the UK, and across the Middle East, our team is composed of dedicated professionals, including engineers, project managers, architects, designers, and creatives. Our collective commitment is directed towards reducing the energy footprint associated with lighting. We take pride in our devotion to providing sustainable solutions that seamlessly integrate with their surroundings, offering purposeful and well-suited lighting solutions for every project.

We travel the world to source from renowned, global and niche lighting brands, curating a product assortment that features iconic designs as well as the latest in contemporary lighting to bring one-of-a-kind lighting experience to our projects.

MISSION

To deliver sustainable lighting solutions shaped out of creative thinking, bespoke approach, cutting-edge technology, intelligent engineering and future focused innovation.

VISION

To lead the industry by transforming spaces through sustainable lighting solutions that enhance human experiences through innovation and aesthetic excellence.

SELECTED CLIENTS

nu**lumen**tek is a trusted provider of advanced lighting solutions, working on a confidential basis with several Tier 1 firms and Fortune 500-level organizations. Our reputation for innovation, quality, and reliability has positioned us as a preferred partner across high-profile infrastructure, commercial, and public sector projects in Europe and the Middle East.

At our core, we embrace innovation, craftsmanship, quality, and sustainability. Our commitment extends beyond the present to nurture emerging design talent, drive scientific exploration, and cultivate pioneering collaborations - all to protect and evolve iconic design legacies for the future.

WE MAKE LIGHTING SIMPLE.

ARCHITECTURAL LIGHTING SOLUTIONS.
We provide architectural lighting solutions based on collaboration with lighting designers, architects and end users.

FLEXIBILITY.
We focus on bringing the most suitable products for each application and ensure we provide the flexibility to modify products as required including complete bespoke product development.

INTEGRATED SOLUTIONS.
We work on unique form factors and integrated solutions for built in applications.

LIGHTING APPLICATIONS.
We support solutions for every lighting application from class A high-end lighting to specialist retail and urban & rural landscape solutions.

DARK SKY COMPLIANCE.
nu**lumen**tek specializes in DarkSky-compliant lighting solutions informed by ALAN (Artificial Light at Night) research, helping clients reduce light pollution while meeting environmental and performance standards across Europe and the Middle East.

SMART LIGHTING CONTROLS.
We provide wired and wireless lighting control systems for all applications including built-in smart sensors.

SPECIALIST RETROFIT & BESPOKE LIGHTING.
We are one of the leaders in retrofit lighting, dedicated to significantly reducing the energy used in existing buildings while maintaining and enhancing the original design intent.

COMPANY ACCREDITATIONS.

We are ISO accredited and operate a strict quality control system across all our processes.

Our policies are structured in a manner that aligns with our clients' objectives and allow us to develop our proposals which are commercially viable based on delivering fit for purpose solutions that are best in class for energy consumption and deliver the most economical whole life cost.

Each project follows a strategy which focuses on providing the most effective solution for our clients where sustainability delivers excellent IRRs and improves the company's bottom line through delivering solutions which meet our criteria for avoidable costs.

All projects are developed in line with our sustainability goals which applies across our whole supply chain.

We continue to adapt our systems each year to ensure we continuously improve; we always aim to stay ahead of the curve with regards to the integration of new technologies and processes.

OUR SERVICES

01/ LIGHTING SOLUTIONS___

We provide lighting products for all applications from standard commercial systems to architectural design focused products. We offer our experience in building services to support clients and designers find the right balance in terms of aesthetics, functionality, energy consumption, maintenance and integration in building fabrics and structures. In most cases we can adapt or provide bespoke solutions when required. We are here to provide support from product selection right through to commissioning and beyond.

OUR SERVICES

02/ ENERGY SOLUTIONS___

Delivering Lighting Retrofit Excellence Accross Continents - From Ireland to the Arabian Gulf

We design every project based on specialist surveys and close engagement with all stake holders to ensure we deliver a lighting solution that is fit for purpose based on the lowest energy consumption possible, this often includes developing bespoke solutions for our clients particularly where unique luminaire types pose a challenge to get exact replacements so we design and provide retrofit solutions using the existing mechanical form factors. We are passionate about our environment and every day we are in business we are generating more savings and helping to improve our environment and ensure a safe clean world for the coming generations.

03/ SOLAR SOLUTIONS___

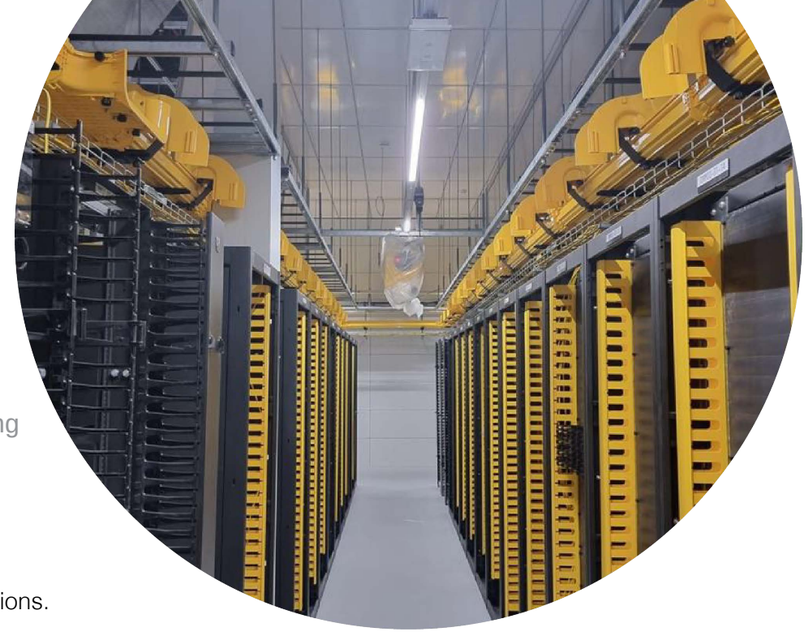

Intelligent and Connected Solar Lighting

We collaborate with leading solar lighting manufacturers, including Nowatt (part of Fonroche), the global leader in solar solutions. Their architectural lights combine sleek design with cutting-edge smart technology, offering customizable lighting and long-lasting performance, even in tough conditions.

Additionally, we design integrated solar lighting for shaded areas and off-grid applications, where traditional power is unreliable or unavailable. These systems provide sustainable, energy-free illumination with minimal maintenance.

For parks and landscapes, solar power delivers innovative, eco-friendly lighting solutions; helping you achieve sustainability without sacrificing style or functionality.

04/ COMMERCIAL & INDUSTRIAL LIGHTING SOLUTIONS___

A Heritage of Engineering Excellence - Innovation And Precision in Every Solution

Our partners benefit from our collaboration, observing measurable improvements in both sustainability and profitability. They depend on us for end-to-end lighting management, leveraging cutting-edge, high-efficiency technology. Furthermore, they entrust us with the continuous refinement of their property portfolios to guarantee peak operational performance. Whether retrofitting existing assets or developing new projects, we guide you from initial product selection through to commissioning - backed by comprehensive after-sales support, including a five-year warranty.

05/ CONTROL SYSTEM___

Transform Spaces with Adaptive Lighting - Precision, Comfort & Energy Efficient

The lighting sector is undergoing a transformative shift towards intelligent control systems, revolutionising how we engage with illumination. This evolution prioritises Human Centric Lighting (HCL), optimising energy efficiency, harmonising with natural light, and enabling dynamic adjustment of colour and intensity to suit diverse needs.

Today's focus transcends basic functionality - advancing towards adaptive, personalised environments that promote wellbeing and performance. Smart integration now delivers precision-tuned lighting, enhancing comfort, health, and visual excellence.

At **nulumentek**, we equip your projects with cutting-edge control systems, seamlessly bridging innovation with human-centric design to redefine modern illumination.

PROJECT CATEGORIES___

Commercial Lighting Projects
- o Office lighting solutions, Retail store lighting design
- o Hospitality lighting (hotels, restaurants, bars)
- o Health-care facility lighting
- o Educational institution lighting

Industrial Lighting Projects
- o Warehouses and factories parking lots
- o Pharmaceutical
- o Food Processing/ Manufacturing
- o Industrial Campuses
- o Big tech manufacturing
- o Data centers

Residential Lighting Projects
- o Palaces
- o High End Villas

Outdoor Lighting Projects
- o Landscape lighting
- o Pathways and driveways
- o Facade lighting for buildings
- o Sports Facility Lighting
- o Dark sky compliant lighting

Architectural Lighting Projects
- o Architectural features
- o Monuments and landmarks
- o Public spaces (plazas, parks)

Sustainable Lighting Projects
- o LED retrofitting projects
- o Energy-saving lighting solutions for businesses and residences
- o Solar-powered lighting installations
- o Eco-friendly lighting designs

Custom Lighting Design Projects
- o Bespoke lighting solutions
- o Unique fixtures and installations

Smart Lighting Projects
- o Integration of smart lighting controls
- o Lighting systems for automation and energy management

AT nu**lumen**tek, WE WHOLEHEARTEDLY EMBRACE THE PHILOSOPHY OF PARTNERSHIPS AS A DYNAMIC AND HIGHLY EFFECTIVE STRATEGY FOR FOSTERING COLLABORATION AND BUILDING MEANINGFUL RELATIONSHIPS.

By leveraging the combined expertise of our partners, we are poised to deliver extraordinary results for our clients.

Our commitment extends to cultivating an inclusive and supportive environment, fostering collaboration with premier designers, manufacturers, and installers.

Together, we strive to create a synergistic network that consistently achieves excellence in every aspect of our endeavors.

LIGHT AFFECTS EVERYTHING. IT IS A SPECIAL PART OF THE BUILT ENVIRONMENT, SHAPING HOW WE SEE AND HOW WE IMPACT THE WORLD.
